About Us/Nosotros

History

Combustion Diesel de Monterrey S.A. de C.V. was established by Mr. Anthony Arthur Drexel Stefan in the year of 1959. Located in the city of Monterrey, Mexico, the company started offering injector repair services. The main service was the reconditioning of the Cummins mechanical injectors and fuel pumps. Since then, up until now, we are only focused on the remanufacturing process of diesel injection systems.

Historia

Combustion Diesel de Monterrey S.A. de C.V. fue fundada por Don Anthony Arthur Drexel Stefan en el año 1959. Ubicada en la ciudad de Monterrey, México, la empresa comenzó ofreciendo servicios de reparación de inyectores. El principal servicio era el reacondicionamiento de los inyectores Cummins mecánicos y las bombas de combustible. Desde aquél entonces hasta hoy en día, nos seguimos enfocando únicamente en la reconstrucción de los sistemas de inyección a diésel.

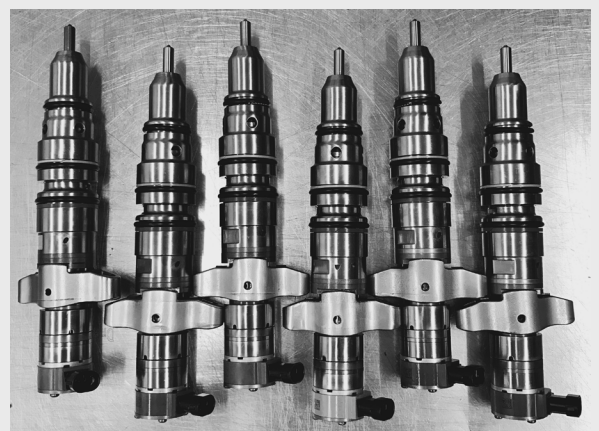

Experts in injector remanufacturing

Our process is not only repairing, but actually remanufacturing the diesel injection systems from the inside out. We install new components that we manufacture and have strict quality testing for all of our products.

Expertos en la reconstrucción de inyectores

Nuestro proceso no es solo "reparar", si no reconstruir los sistemas de inyección de adentro hacia afuera. Instalamos nuevos componentes que nosotros mismos fabricamos y contamos con estrictos estándares de calidad en todos nuestros productos.

Our Process/Nuestro Proceso

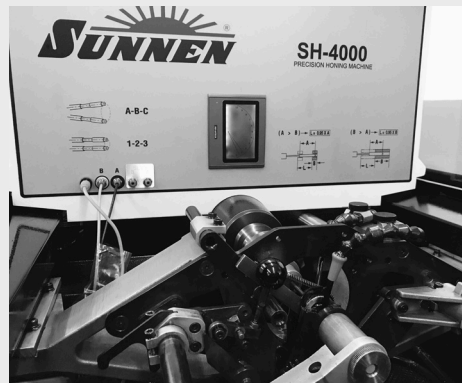

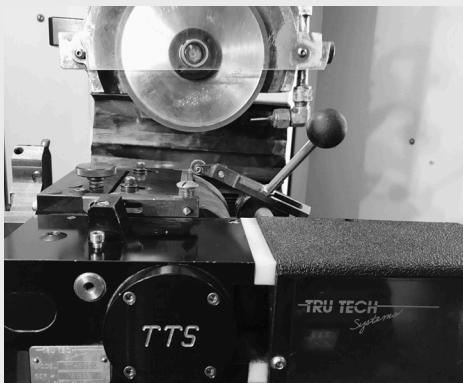

Manufacturing

We have more than 70 machines that help us with all the re-manufacturing process. Such as CNC and Siwss type machines, lathes, drilling machines, honing, ultrasonic and industrial cleaners, and all the diagnostic equipment for injector testing. We are always keeping up with the latest technological advancements in injection and manufacturing.

Manufactura

Contamos con mas de 70 máquinas que nos ayudan al proceso de reconstrucción. Tales como centros de maquinado CNC, tornos tipo Suizos, rectificadoras, taladros, maquinas de hono, lavadores de ultrasonido e industriales así como todos los equipo de diagnóstico de inyectores. Siempre estamos a la vanguardia en las últimas novedades de manufactura e inyección.

Quality Control

We have a QC department that verifies every part we manufacture to ensure their measurements, hardness, geometry, etc. As well as strict test plans in the injector test equipment to ensure a premium quality product.

Control de Calidad

Contamos con un departamento de control de calidad para verificar todos los componentes que fabricamos en sus medidas, dureza, geometrías, etc. Así como estrictos planes de prueba en los equipos de diagnóstico de inyectores para asegurar un producto de calidad.

Injector Tester

Drexel is the authorized distributor for the Maktest Equipment in all the American continent. Maktest builds diesel injection test equipment for all injector and fuel pump makes at an affordable price. This Turkish brand has been on the market for over 40 years constantly working on technological improvements. Drexel offers test benches sales, operation training, customer service and technical support.

Grupo Drexel es el distribuidor autorizado para los Equipos Maktest en todo el continente Americano. Maktest fabrica equipos de diagnóstico para todo tipo de inyectores y bombas diésel. Esta marca Turca lleva más de 40 años en el mercado trabajando constantemente en mejoras tecnológicas. Grupo Drexel ofrece la venta de estos equipos, así como entrenamiento para su operación, servicio al cliente y soporte técnico.

Authorized Distributors

Warranty Terms & Conditions/ Términos y Condiciones

LIMITATIONS

The warranty is limited to 12 Months to the total replacement of the injector parts or to the repair of itself.

APPLICATIONS

The warranty will only have effect if the injector (s) has been installed according to the corresponding application.

DEFECTS

The warranty is effective against defects in materials and workmanship, used for reconstruction.

THIS WARRANTY DOES NOT COVER

Additional repairs, and is not validated by:

- Damage to storage.
- Mechanical negligence.
- Inappropriate or contaminated diesel fuel.
- Modification or alteration of the product.
- Any other remarks of our quality control department and specifications.
- Water on fuel

Note: All the injectors are rebuilt under strict quality control and with appropriate specifications for best results.

GENERAL CONDITIONS FOR THE ACCEPTANCE OF INJECTOR CORES

- The injector cores shall be the same type and part number as the one being supplied.
- The injector cores shall not be opened or unarmed.
- The injector cores are subjected to a revision for their acceptance.

LIMITACIONES

La garantía esta limitada a 12 meses (USA) 6 meses (MX) al reemplazo total del inyector o a la reconstrucción del mismo.

APLICACIONES

La garantía solo aplica si el/los inyectores fueron instalados correctamente de acuerdo a su aplicación.

DEFECTOS

La garantía es efectiva contra defectos ocasionados por mano de obra o materiales utilizados para su reconstrucción.

ESTA GARANTÍA NO CUBRE

Reparaciones adicionales, y no es validad por:

- Daños en el almacenaje
- Negligencia mecánica
- Diesel inapropiado y/o contaminado
- Modificación o alteración en el producto
- Daños por agua en el combustible
- Cualquier otro señalamiento de nuestro departamento de control de calidad

Nota: Todos los inyectores son reconstruidos bajo estrictos controles de calidad con sus especificaciones para óptimos resultados.

CONDICIONES GENERALES PARA LA ACEPTACIÓN DE CORES DE INYECTOR

- El core de inyector debe ser el mismo numero de parte y tipo al que se surtió
- El core de inyector no debe ser abierto, desarmado o manipulado
- Todos los cores de inyector estan sujetos a su revision para su aceptación
